MOST RECENT ROLE

Senior UX Designer & Strategist
Autodesk (Product Access), Singapore
June 2022 - May 2025

I designed for the “non-experience” of access. This required balancing an understanding customer expectations, technical architecture, (non)compliance, and the complex problems in between to shape the illusion of seamlessness when launching and accessing design software.

Contributions

- New errors framework • Modernizing legacy serial number and network workflows
- Research on Linux customers • Design - thinking workshops • Design system enabler
- Strengthening PM - UX - ENG collabs
- Raising team awareness about UX/UI

SKILLS

PROFESSIONAL

- UX Design • Mixed methods user research
- DesignOps Strategy • Systems-thinking • Critical & analytical • Problem-solving • Value seeking
- Workshop prep & facilitation • Presentation & Story-telling • In-person and virtual collaboration

PERSONAL

I'm a Third Culture Individual with strong ties to South East Asia. I'm a Danish passport holder, yet a native English-speaker. I'm bilingual in Spanish. I'm highly adaptive, self-taught, thrifty, crafty, and a foodie.
